

Swinging Cow Brush (SCB)

Comfortable and Happy Cows Produce More Milk.

Designed to improve cow health, comfort and welfare, the swinging cow brush – which starts to rotate on contact – is a revolution in cow care and cow comfort. The unique brush rotates at an animal-friendly speed, swings freely in all directions, smoothly up, over and alongside the cow to provide comfort all around. The SCB enhances natural grooming behaviors and helps improve hide health, blood circulation, cooling in hot weather and has proven to reduce cases of clinical mastitis.

- Improves cow health, welfare and happiness
- Easy to maintain and clean
- Improves herd performance
