

# DAIRYPRO

Your Productivity Partner

## Total Mix Ration (TMR) Feed Mixers

Proper nutrition is one of the key drivers of dairy cow productivity and farm profit.

DairyPRO-supplied TMRs ensure your rations are correctly mixed to ensure your feed sources are blended to your exact proportions.

DairyPRO offers conventional tractor-pulled units, as well as truck-mounted, self-propelled, or stationary units.

- All models include durable and rugged mixer feeder with a single/double vertical mixing screw.
- Fast and very thorough mixing of all commodities including big, round or square bales
- Includes scale system for accurate weighing
