Alley Scrapers for Manure Removal

Clean Cows, Udders and Hoofs are important for producing quality milk and profit!

Automated Alley Scrapers keep barns clean while saving time and money.

Features:

- ½" diameter chain, extra hard-forged steel
- Scraper chain can run on top of floors or in groove
- Simple drive units with only one moving part
- Straight and V blade options & easy-to-replace
- Touch Control Panel
- Programmable Controller (speed, schedule)
- Very low-profile corner wheels
- Superior animal safety / protection

Advantages:

- Low maintenance
- Long life, high-reliability
- Scrapers operate in alleys of differing lengths
- Quick-Attach blade mount to the towing sled, no tools
- Control panel easy to use and program
